Eurolib Modular

Adaptable to all your transport needs, the EUROLIB modular makes it possible to drive at different heights up to 500 mm more than standard bodies.

Designed with lifting headboard and modular doors, the hydraulic pump system gives the option to extend the body height effortlessly and safely, every 100 mm. The aluminium side boards are designed with several.

Fastening levels for the curtains, to guarantee a perfect water-tightness.

The sliding posts can be moved to facilitate handling operations. You can choose between a sliding or fixed roof, depending on your use..
